Wet End Chemistry - Mini-Conference **'PRACTICAL PAPERMAKING CHEMISTRY'** **Thursday, 22nd April 2010 at Blackburn Chemicals**

This seminar will be focusing on more recent developments in wet end and size press applications with a strong emphasis on practical applications and benefits across all paper grades.

Provisional Programme

- 8:45** Registration & Coffee
with Bacon Sandwiches on Arrival
- 9:30** Introduction on Trends in the use of pulps and paper chemicals
Leslie Webb, Envirocell
- 9:45** Chemistry of Bleached Kraft Pulps
TBC
- 10:10** Filler surface chemistry, additive chemistry and sheet formation
Nigel Jopson, Pira International
- 10:35** Effective flash mixing of chemicals close to PM headbox brings considerable cost savings together with environmental benefits
Jouni Matala, Wetend Technologies, Finland
- 11:00** Coffee & Cakes
- 11:20** Biopolymers At The Wet-end, A New Approach
Martin Georgeson (Roquette UK) and Regis Houze (Roquette Frères)
- 11:45** Dry strength of recycled papers
Paul Dekock, Clariant
- 12:10** Electrochemical method for calcium carbonate and microbial anti-fouling in pulp and paper process
Matti Häkkinen, Savcor Forest Oy, Finland
- 12:35** Kemira's patented Green approach to Deposit Control
James Atkinson & Juha Rintala, Kemira
- 13:00** Lunch & Networking Opportunities
- 14:30** Foam control in paper systems
Phil Cooper, Blackburn Chemicals
- 14:55** Charge control for improved paper production
John Munday, BTG
- 15:20** Polymers & Retention
Axchem

- Further contributions may be added
- The mini-Conference will be followed by a Meeting of PITA's Northern District (with presentations from Imerys & Petrofer)

Only £175 (plus VAT) per person for the day, including full presentation notes, refreshments. (Discounts available to PITA Members)

Additional Benefits

- Display Area Available to Suppliers
- Sponsorship Opportunities
- Extended Lunch for Networking
